

Hickory Hills Water Association  
Taylor Ridge, IL

June 24, 2017

Hickory Hills Water Association Members:

Each year our water system is required by the Illinois Environmental Protection Agency to complete a Consumer Confidence Report (CCR) and to make it available to everyone served by the water association. The CCR contains basic information about our water system and detailed data about the quality of our water. The report contains data tables listing regulated contaminants detected by water analysis completed in 2016.

If you are interested in a copy of the report, please contact **Joe Gates at 309-738-1087** or visit **[www.yourwateronline.com](http://www.yourwateronline.com)**.
